Happy Creek Artisans, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This fictionalized memoir started out as a list of odd events of my life that piqued my curiosity. At parties and other gatherings people seemed to be very interested as I told these stories from my past and they urged me to commit them to paper. These events were experienced during a time of stress, heavy use of hallucinogens, head injuries, and survival. Along the way the experiences of magic, sentient weather systems, ancient star constellations, and brushes with the law, along with the navigation of the emotional chasms and heavens they evoked, were among the most memorable times of my life. --Steven Bach Review by Don Williams Get ready for a trip down the rabbit hole, across the universe and through the author s personal looking glass all at a gulp should you slip this daring, courageous and insightful book beneath your tongue. Steven Bach has rendered the story of his psychic and physical voyaging with day-glo honesty, numinous pathos, and neon wit. Bravo -- Don Williams, New Millennium Writings.
