Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information on Tinker Air Force Bases efforts to correct its hazardous waste management problems. GAO found that Tinker: (1) implemented a recycling system to reuse hazardous substances generated at the base; (2) installed sensor-activated cutoff valves in its plating and chemical cleaning facility to regulate the flow of industrial wastewater entering its water treatment center; and (3) procured recycling equipment, but will not be able to use it until 1988. GAO also found that: (1) pollution continues to reach the bases streams and groundwater; (2) Tinker requires contractors involved in off-base hazardous waste shipments to use disposal sites that comply with the Resource Conservation and Recovery Acts provisions; (3) Tinker collected 52,000 and expects to collect 24,000 in overpayments for hazardous waste shipped off base because of its improved accounting controls; and (4) regulatory agency officials and Tinker believe that it could take years to completely resolve the remaining pollution problems because of their size and complexity. This item ships from La Vergne, TN. Paperback.
