CRITICAL THINKING?: INTRODUCTION TO NAVIGATING THE IRRATIONAL (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Business organizations are in constant and accelerating crisis. This fact is so obvious that we stopped being aware of it in its entirety and we focus our attention on particular areas instead, trying to address them in isolation. What s more, when addressing big issues affecting business, we seek solutions and - which is even worse- perspective within the business domain itself: we turn to managers, consultants and academics specializing in various aspects of business. This myopic mentality has found its way to the larger domain of economics and politics which are being run as businesses, further reinforcing the prevailing crisis. Our premise is simple: to solve our problems or to trigger positive change we need to look outside of the business domain, even outside of the modern mentality that gave birth to business in the first place, go beyond ephemeral theories, reach back to the fundamentals, draw on timeless wisdom and find ways to apply them in the current setting. The alternative is to simply continue our course. With the PRAKHSIS CLASSICS SERIES we attempt to present the principles or perspectives from the Primordial Tradition directly or through the greatest personalities in history who successfully connected these principles to practical areas of life, including decision making, communication and behavior in governance, military, diplomacy or commerce. Drawing on the works of such personalities, in each book we attempt to bring various aspects of these principles closer to people who want to act authentically and fairly, according to the Truth: the only condition to trigger necessary change. Looking at the publicly available reading lists of top managers, this perspective is missing. Of course: even if top managers were reading or...
