Pages Number : 666 Publisher: Beijing Education Press Pub. Date :2011-03-01. teaching high school physics class now with the current internal and external knowledge search Introduction: the teaching lessons now with the current internal and external knowledge search series is the result of more than three years research. concept. design. carefully crafted set of books. It is the quality of education and the college entrance examination-oriented new requirements. based on old and new materials of knowledge to write. The book focus on the basics of a comprehensive induction. methods commonly used in the system. in-depth knowledge of mining methods. the intrinsic link between the ability. Comprehensive knowledge of existing systems in order. there are scientific and practical study of law Enlightenment; both for weekdays accumulation of knowledge. and help enhance the comprehensive ability; both for synchronous learning. but also for the Readiness Review. An old saying: to teach him to fish. rather teach him to fish. A good books should not only contain a wealth of knowledge. but also to teach the method to acquire knowledge. while emphasizing the ability to be fish and fishing organically combined. To this end. the series to determine the depth of mining disciplines. expand the width of teaching materials; keep the old material essence. to absorb the essence of the new materials; induction of subject knowledge. the learning method. the compilation approach. In the preparation process. we present several reference materials have a greater impact. from the basic knowledge. basic skills. thinking. observation. experimental capabilities. self-learning ability in terms of scientific induction. the system order; rational division. well design; in-depth analysis. comprehensive Detailed. Strive to be comprehensive and accurate grasp of basic knowledge...
