Servo-pneumatic Systems
Component-based modelling, simulation, and control

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Component-based modelling, simulation, and control | Substantial research efforts have been spent over the last two decades on improving the modelling, control, and design of pneumatic systems, which resulted in a potential growth for their market. This increasing acceptance for pneumatic technology is due to their economy and simplicity compared to other technologies of equivalent performance in terms of robustness, simplicity, and cost-effectiveness. However, servo-pneumatic applications are still limited compared to their...
