Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Veloce Publishing Ltd, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book. From the 1950s through to the 1970s, Hughie Hancox worked at the Triumph Meriden factory in various capacities - a fitter, a member of the famous Royal Corps of Signals Motorcycle Display Team, in the experimental department (where he actually worked on the prototype Bonneville), and eventually as one of the legendary Triumph testers. This latter role provided countless unique experiences with some of the most iconic British motorcycles ever manufactured. The story of production testing at Meriden has never before been published, and this intimate and pragmatic account comes straight from a man who was at the heart of it. With many previously unpublished pictures and service bulletins, plus helpful advice on problems that still exist with the bikes today, this is a unique book about a fascinating time and place in British industry.
