Molly is an eleven year old girl whose best friend is a fully functioning A.I. computer called Corry. In their second great adventure they re on a mission to rescue a lost pet and as she finds out more Molly becomes convinced a crime has been committed. She even thinks she knows who did it. Corry gains the ability to see and creates a whole new set of problems for Molly. Dad proves he s a hero, risking life and limb and somehow, so does Molly s brother Tom. The duo become sleuths to investigate and bring the culprit to justice. They recruit a wannabe spy, a retired spy and a spy in the sky, to catch a creepy spy guy and liberate a couple of dozen hostages on the way, while trying to get an A in science with Lizzie and definitely not looking cool in pink. Corry discovers she s not alone and like most families they have their own problems, but usually ours can be fixed without space flight. At school Riley s still a pain and it looks like Jazzy the class bully has been arrested, but looks can be deceiving. Molly and Corry conquer the perils of space and dare a rescue in an adventure requiring detective skills, bravery, a brush with death and the help of a local dragon Lord (retired). and of course, dad.
