DISTINCT PRECURSORS OF THE DENDRITIC CELL SUBTYPES

Shalin H. Naik

Distinct precursors of the
dendritic cell subtypes
Discovery, isolation and characterization

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Discovery, isolation and characterization | Dendritic cells (DCs) are the Generals of the immune system and instruct the immune system on how to clear infectious micro-organisms. DCs ingest these microbes, then travel to the headquarters of the immune system where they instruct soldier T cells. This leads to the killing of infected cells and the release of antibodies to neutralize remaining and future microbes. In recent years, it has become clear that...
