But our view of property is this: The rights of property mean a concentration of social duties. Our socialism rests in duty, not in right. Duty is always plain; right is a verbal mystification. A man can always and everywhere do his duty. He seldom can get his supposed rights without trampling on the rights of others. Men wrangle incessantly as to rights. They easily agree as to duties. The performance of duty is always ennobling, a moral, a religious act. The struggle for rights calls out all the passions of self and of combat. These words of a high-minded writer of recent times may serve as an introduction to the present volume; but we must go farther; we must give a distinctly Christian note to our treatment. While most of what is written here has the broadly human aspect, it is all intended for people who are already inspired by the motive of love to God as revealed in Jesus Christ, and who desire to learn what the Master requires of men and women of this generation.
